

## Ensure Regular Monthly InCheck Reports

Simplify Supplier Reporting with CleanChain

## Tired of Chasing Suppliers for Monthly Reports?

Our platform streamlines the process of getting suppliers to complete their regular monthly InCheck reports, ensuring you have timely and accurate data.

### Why Choose CleanChain?

**Automated Reminders:** Never miss a report with automated reminders sent to suppliers.

**Easy Reporting:** Simplify the reporting process with user-friendly interfaces.

**Real-Time Tracking:** Monitor report submission status in real time.

**Enhanced Compliance:** Ensure compliance with regular and accurate reporting.

### How Does It Work?

**Automated Notifications:** Suppliers receive regular reminders to submit their reports.

**User-Friendly Interface:** Simplified reporting tools make it easy for suppliers to complete their reports.

**Real-Time Monitoring:** Track the submission status and follow up as needed.

**Comprehensive Reports:** Access detailed and accurate monthly reports for better decision-making.

## Key Features

### Automated Reminders

- **Scheduled Alerts:** Set up regular reminders to be sent to suppliers.
- **Customizable Frequency:** Adjust the frequency of reminders based on your needs.
- **Notification Tracking:** Monitor which suppliers have received and opened their reminders.

### User-Friendly Reporting Interface

- **Simplified Forms:** Easy-to-use forms make reporting quick and hassle-free.
- **Guided Steps:** Step-by-step instructions help suppliers complete their reports accurately.
- **Support Resources:** Access to help and support to assist with any reporting issues.

### Real-Time Monitoring

- **Dashboard Overview:** View the status of all pending and submitted reports in one place.
- **Submission Tracking:** Identify which suppliers have completed their reports and which ones need follow-up.
- **Compliance Dashboard:** Ensure all suppliers are compliant with reporting requirements.

**Streamline your supplier reporting process and ensure timely monthly InCheck reports.**
